

## Screen-printing the Garments - VGKids

For the past five years, our friends and neighbors at [VGKids](#) have been our creative design partners and printers-of-choice, as well as our confidantes and hometown ethical trading partners. We love these guys (and girls)! They support Maggie's in so many ways: sourcing and developing the latest in water-based inks, meeting frantic deadlines, and never saying no to our latest wild idea - no matter how right-brained.

Together, we have tested and retested phthalate-free inks, designed an award-winning Baby Bodysuit line, provided tees to many a non-profit group, supported lots of hometown charities, and designed more than a few custom scarf projects. VG Kids is the last step (besides Maggie's) to be involved in the new Fair Labor Certification program and they were inspected to the same standards as the rest of the partners in this chain. The folks at VG Kids are proud to be a part of this chain, and we are very happy to have them on-board.
